

RECYCLE  
USED OIL

## Recycle Used Motor Oil and Oil Filters

Pollutants and litter get washed from our sidewalks and streets into our rivers and oceans.

You can help keep California clean through proper disposal of trash, cigarette butts, paint, chemicals, motor oil, and pet waste.

RECYCLE  
USED OIL FILTERS

If you change your own motor oil, please recycle your used oil at one of the following five certified Used Oil Collection Centers in Walnut. Walnut residents may also pick up a free used oil container or oil filter container at the Maintenance Department and Recreation Services, 21701 E. Valley Blvd. Proof of residency is required. Call (909) 598-5605 for details.

## How To Dispose of Household Hazardous Waste

Household Hazardous Waste can be found in most houses and garages. For example, products like bug spray, paint thinner, antifreeze, hair spray, prescription medicines and furniture polish may be hazardous if

they are labeled toxic, poisonous, corrosive, flammable or combustible. When hazardous materials are not disposed of correctly, our environment suffers.

They can pollute our waters, kill our plants and damage our soil. Because many of these products are flammable and extremely corrosive, they should be kept in a dry, well ventilated area. It is also important to properly store these materials away from pets and people.

The County of Los Angeles hosts mobile collection events every Saturday which are open to all residents of LA County. Please visit one of these events to safely dispose of your hazardous waste materials. For details and a schedule of events near you, log onto [www.888CLEANLA.com](http://www.888CLEANLA.com) or call 1-888-CLEAN-LA.
